Plan B Technologies, Inc. (PBT) is currently looking for a Citrix Systems Consultant. PBT is an IT solutions and professional services provider. From the datacenter to the desktop, PBT's areas of expertise include: storage area networking, backup, recovery and archiving, security and network infrastructure, Microsoft solutions and cloud virtualization solutions for infrastructure, applications, and desktops. Take advantage of a great opportunity to join a high-performance team of talented and supportive professionals.

Location
PBT is headquartered in Annapolis, MD. Our customer base is primarily in the Maryland, DC, and No VA areas.

Description:
* To provide best of industry consultation, education, assessment, design, integration, documentation & support services to our customers as a Full Time Employee.
* Work collaboratively with project managers, account managers, and customers in successfully planning, coordinating, delivering and closing IT projects.
* Maintain up-to-date industry certifications specific to areas of practice and as required to maintain Vendor/VAR status.

Requirements:
* Demonstrable experience in one or more of the following Citrix technologies: Citrix XenDesktop, Citrix XenApp, Citrix NetScaler, Citrix Storefront, Citrix Provisioning Services, and Citrix mobility solutions.
* Demonstrable experience with Windows 2012 and 2008 R2 server, Active Directory 2012/2008 R2 and a working knowledge of best practices tied to security, performance, hardware, networking, scripting, and backup and recovery.
* As required, after hours work in support of projects and customer support.
* Ability to observe, detect, identify and neutralize complex technical challenges and communicate resolutions in a clear, concise and complete manner.
* Citrix CCP-V, CCE-V and/or CCP-N certifications (what used to be Citrix CCEE, CCIA and CCA certifications) a plus.
* Additional consideration given to experience and certifications with the following: App-V, MS Hyper-V, VMware /vSphere, Windows Desktop OS, Microsoft SQL Server, Microsoft System Center, Microsoft Exchange, enterprise storage (EMC, NetApp).

If you are ready to work in a dynamic environment, are excited about learning new technologies and demonstrating technical prowess as a Citrix Subject Matter Expert, traveling and continuously working with new and different customers, and have the skills to provide outstanding customer service to our world class customer base, please apply.

PBT provides a competitive compensation & benefits package, as well as a fun corporate culture that demands your best! Benefits Include:

— Employer Paid Individual Medical Insurance
— Comprehensive Dental and Vision Insurance
— Employer Paid STD/LTD Coverage
— Employer Paid Life and AD&D Insurance
— Simple IRA Retirement Plan
— Continual Training & Professional Development including certification classes and exams

PBT delivers a complete lifecycle of professional services including project management, education, consultation, assessment, design, planning, deployment, support and staff augmentation.
